

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with parts covering more than 120,000 specific components for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark has a phenomenal Parts Supply team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark's recurrent effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the very economical and beneficial system of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most efficient approaches of production plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering program combines modern product development and provides improved consumer support and service within the industry.
