

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts as well as different forklifts can have particular labels utilized in some hazardous locations. The label denotes that this specific model of forklift meets the minimum standards of ANSI/UL 553 for electric lift trucks or ANSI/UL 558 meant for internal combustion engine lift trucks.

Applications for marked lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Ask your local insurance carrier and Fire Marshall for additional information regarding the permitted uses of industrial powered trucks in your application.

If the particular lift truck meets the outlined criteria, labels could be attached. A labeled lift truck would show the type of designation put on the nameplate and would have a correctly corresponding label put.
