

Concrete Hopper

Concrete Hoppers - The self-dumping hopper accessory can automatically start to both unload and release whenever the bumper release touches the side of a dumpster. After dumping is completed, the hopper could go back to original upright and locked position. This particular piece of machinery is even available along with a cable which enables operation from the seat of the forklift to be able to have the option of manually dumping the hopper. There is a locking chain provided to secure the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper likewise has a blue powder coat finish so as to maintain durability.
